

FEES EXPLAINED IN DETAIL

@OPENFINTECHSOLUTIONS

Setup Fees

To start collaborating, we charge our clients a setup cost, in order to secure their funds and develop the necessary infrastructure. These fees consist of:

- a) Wallet infrastructure cost
- b) Platform customization cost

Management Fees

All clients benefit of a portfolio manager, and make use of our systems to keep their investments secure and easy to access.

These fees consist of the following:

- a) AUM Fees - paid by OFS to keep your investment with a trusted custodian.
- b) Exchange Fees - paid by OFS to Acquire and Sell Digital Assets on your behalf

Early Withdrawal Fees

We charge early withdrawal fees when the contract has not been fulfilled due to client change of mind.

These fees allow us to cover our cost when a client decides to withdraw from a contract before the agreed upon period.

Success Fees

When a client makes profit, so do we, As per every client's contract, we charge a fee when we make profit for the client, allowing us to keep a happy team and a prosperous business.
